

SIEMENS

Siemens Healthcare Diagnostics is pleased to announce the recent approval by the Food and Drug Administration (FDA) of several assays for use in the United States. On May 26, 2009, the FDA approved 7 assays for specific food allergens:

| Assay Number | Food Allergens |
|---------------------|-----------------------|
| F202L2 | Cashew |
| F203L2 | Pistachio |
| F256L2 | Walnut |
| F207L2 | Clam |
| F290L2 | Oyster |
| F338L2 | Scallop |
| F245L2 | Egg |

Additional assays are currently being reviewed by the FDA and should be approved soon. Check www.usa.siemens.com/3gAllergy for updates on available 3gAllergy assays.
