

Clinical Workshop on Cardiac CT University of Munich

Course design and objectives

The three-day course program offers intense, individualized, hands-on CTA training to a small number of participants using *syngo.via*. Two participants will share one workplace to use throughout the course.

All aspects of cardiac CT imaging (calcium scoring, CTA, functional imaging, viability imaging, valve imaging) will be addressed in comprehensive lectures that support the hands-on training sessions. Opportunities for advanced training and observation of live CT cases on the SOMATOM Definition Flash are also provided.

By course end, participants will be prepared to complete Level 1 ACC/AHA certification. Imaging skills learned on the workstations will be easily transferable for use with all other vendors' equipment.

Learn how to perform CT Coronary Angiography

- Preparation
- Protocols

Learn how to evaluate CT Coronary Angiography

- Coronary stenosis and plaque evaluation
- Coronary stents
- Coronary veins
- Myocardial perfusion
- Valves, Viability and Extra cardiac findings
- Triple rule out

Learn how to use Cardiac Workflow using *syngo.via*

- CT Coronary
- CT Cardiac
- CT Cardiac Function
- CT CaScoring

Clinical Workshop on Cardiac CT Munich/Germany

Answers for life.

SIEMENS

**Date details:**

February 15–17, 2012 (Course ID: CTMUC0112)
July 04–06, 2012 (Course ID: CTMUC0212)
October 17–19, 2012 (Course ID: CTMUC0312)
December 12–14, 2012 (Course ID: CTMUC0412)

Course hours:

Wednesday: 9:00 a.m. – 5:00 p.m.
Thursday: 9:00 a.m. – 5:00 p.m.
Friday: 9:00 a.m. – 3:00 p.m.

Meeting point for the first day:

8:45 a.m. at the main entrance of Munich Medical Center Grosshadern

Course Director:

Prof. Dr. Christoph Becker, MD Department of Radiology
PD Dr. Thorsten Johnson, MD Department of Radiology
Dr. Alexander Becker, MD Department of Cardiology
