

Keep Pace with the Future with a Managed Upgrade Program

# *syngo* Evolve for Artis *zee* Family

At Siemens, an investment in the new Artis *zee* family marks the beginning of an important relationship that will last over many years.

Our customer care program, Life, offers customers access to an array of programs and services that drive imaging excellence, enhanced workflow and investment confidence.

Artis *zee* and Artis *zeego* have been designed with the future in mind, and Siemens is committed to sharing that future with customers who invest in Artis *zee* today.

For example the new *syngo* Evolve for Artis *zee* allows customers to participate in future innovations and extend the productive life of their system via a managed upgrade program.

With *syngo* Evolve, customers can enjoy the benefits of a planned upgrade of both the Artis *zee* system and associated *syngo* X Workplace. This upgrade includes the latest software version, plus any hardware required to ensure the best possible system performance. In other words, customers with *syngo* Evolve for Artis *zee* can look forward to sharing in the newest innovations three to five years after system delivery. The upgrade improves the functional-

ity of the existing software applications and gives optional access to innovative new software applications and solutions\*. Moreover, it includes all necessary hardware enhancements to take full advantage of the new software. To ensure that customers get the most from their newly upgraded system, Siemens will be there to provide them with the necessary application support and training.

## Benefits at a glance

- Increased system performance
- Improved software functionality
- Access to new optional software applications \*
- Efficient and improved postprocessing and reconstruction
- Economical and calculable budget planning
- Increased investment protection
