

Innovations '08

Sharing ideas. Expanding knowledge.

July 28–31, 2008, Mandalay Bay Resort, Las Vegas, Nevada, USA

Best Practice Sharing and Networking for Technologists

The annual Siemens Customer Education Symposium Innovations '08 is held on July 28–31, 2008 at the Mandalay Bay Resort in Las Vegas, Nevada; USA. At Innovations '08, you'll have the opportunity to enhance your knowledge to improve system efficiencies that will maximize your workflow – all while sharing best practices with other imaging professionals and obtaining continuing education credits.

This symposium is designed to provide you with educational opportunities to improve your skills, learn new techniques, and utilize new technologies to maximize the use of your Siemens systems. Join us as we gather together to share ideas and expand our knowledge to improve efficiencies and enhance patient care.

Educational Accreditation*

Educational credits from the following organizations will be offered for select sessions: ACHE, ACPE, AHIMA, ANCC, ASRT, HFMA, and NASBA.

Who should attend?

Technologists specializing in:

- Angiography
- Oncology
- Cardiology
- PET-CT
- Computed Tomography
- Radiography
- Mammography
- RIS/PACS
- Magnetic Resonance Imaging
- Ultrasound
- Nuclear Medicine
- Women's Health

Purchasing and Registration

Information:

To purchase an Innovations '08 package including registration, travel and lodging, please contact +1-800-274-3636. After your purchase is complete, we will send you registration instructions.

For more information on the program, please visit the Innovations '08 website at

“Innovations '07 provided a remarkable opportunity to learn from and network with my fellow attendees and the Siemens team. The MRI lectures were very well planned, content was meaningful to the audience, and the speakers were very knowledgeable about their topics. I learned about troubleshooting, assessing IQ, positioning tips, advanced imaging techniques, and future software for our systems. I look forward to attending Innovations '08.”

Carlos Portillo, RT
MRI Technologist, University of Maryland
Medical Center, Baltimore, Maryland, USA
