Explore our World of Online Self-Paced Courses

What is online, self-paced training?

Learner-controlled, self-contained courses available over the Internet using web-browser software.

Siemens Medical Academy is the Portal to Learning

Siemens Medical Academy, www.siemensmedicalacademy.com, provides a broad range of learning opportunities, including more than 1,200 courses in three libraries. These courses can be delivered to an employee's desktop anytime, from any personal computer with access to the Internet.

Advantages of online, self-paced training

Online, self-paced training provides the flexibility to participate in training when and where it is most convenient. Employees can learn at their own pace, and training generally takes less time than live, instructor-led classroom training. In addition, related training costs are lower since there is no

need to incur travel expenses and less time is spent away from the job. Mission-critical training can be obtained from one central source – Siemens Medical Academy.

Our courses use proven instructional design principles that incorporate interactive learning activities and assessments to ensure knowledge and skills transfer. Simulations are embedded in many of the courses to maximize overall training impact, to prepare the learner for real-life situations, and reinforce key business skills, concepts and terminology through “learn-by-doing” activities. Some courses are also accredited for Continuing Education credits.

Libraries

- **Siemens IT Applications**
These online courses cover such products as Soarian® Clinicals and Financials, NOVIUS® Radiology, INVISION® Patient Management, and INVISION Patient Accounting.
- **Regulatory and Compliance Training**
Includes courses related to HIPAA as well as environmental, safety, and health.
- **General IT and Desktop Applications; Professional and Business Development**
Includes courses on programming, networking, office, and communications applications that cover topics such as HTML, managing networks, and Microsoft® applications such as Word, Excel, PowerPoint, and Outlook.

Purchase Options

Individual courses can be purchased on Siemens Medical Academy using our secure eCommerce module and a personal credit card. Retail prices vary based on the topic and length of course. Course details, including descriptions, objectives, course durations, and prices can be found on Siemens Medical Academy.

Group subscriptions can be purchased in conjunction with our Siemens Learning Management Service, and are available for all libraries.

For more information on purchase options, please call Education Services at 800-736-8000, or log onto Siemens Medical Academy.

On account of certain regional limitations of sales rights and service availability, we cannot guarantee that all products and features included in this brochure are available through the Siemens sales organization worldwide. Siemens reserves the right to modify the design, packaging, specifications, and options described herein without prior notice. Please contact your local Siemens sales representative for the most current information.
