Title	Number	Rev	
ENVIRONMENTAL, HEALTH AND SAFETY POLICY	EHS/021	03	

Policy:

Our Five Environmental, Health & Safety Commitments related to our business are:

- **Continual improvement** to protect the environment and provide a safe working environment for us, our contractors, customers and the communities where we operate
- **Control** and reduce hazards and business risks
- **Create** products and solutions to improve EH&S aspects across product life cycle phases when possible
- **Conserve** natural resources and prevent pollution
- **Compliance** to applicable EH&S regulations and maintain market access

To achieve our Commitments:

- Executive management is responsible
- EH&S is personal and employee participation is mandatory
- We use our EH&S management system as a living system
- EH&S is part of all business functions
- EH&S regulatory compliance is mandatory.
- EH&S objectives and targets are implemented to improve our business processes and EH&S performance, and are reviewed by executive management
- We expect our business partners to participate with us to improve EH&S performance
