a valued business partner

*Empower the mind to relax and
the body to heal...*

*...by gazing on colorful floral gardens,
pristine sandy beaches, starry nights,
majestic mountains or soft clouds
in a striking blue sky.*

Therapeutic Environmental Solutions

TESS USA Inc. the premier provider of Backlit Views to Nature™ for healthcare facilities.

TESS USA Inc and Siemens Accessories Solutions have partnered to provide therapeutic environmental solutions - backlit Virtual Skylights and Virtual Windows which:

- Transform windowless areas into more compassionate, patient focused healing environments
- Offer patients a holistic healing model for body, mind and spirit
- Reduce stress, comforting the patient and their family
- Provide an effective, cost efficient marketing tool for hospital administrators
- Establishes dynamic and productive work areas for hospital staff

Brenda Hall, MBA, RTT
Oncology Service Line Director
Cape Fear Valley Health System
Fayetteville, North Carolina

“During our linear accelerator renovation we contacted TESS USA in hopes of finding unique ceiling artwork designs. TESS provides a great selection of photography and artwork and will do custom work to meet your needs as well. Our patients LOVE gazing into the galaxy ceiling while receiving their treatments! Having something interesting to look at during medical treatments is much nicer than staring at a blank ceiling. It truly calms and relaxes the patients.”

Gianluca Borelli,
Chief Engineer and
Head of Facility Operations,
G. Brotzu Hospital,
Cagliari, Sardinia, (Italy)

“Everyone was amazed at the transformation that these nature views provided to the environment. Now all the divisions want them.”

“We have hospital employees stop by and ask if they can have a peek at our sunshine and lovely views. It has definitely brought happiness to patients and employees alike.”

Connie Felton,
Radiology Manager,
Center for Advanced Imaging at
West Virginia University
Medical Center,
Morristown, WV USA

Rick Nolette
Project Manager,
Construction
Children’s Hospital of
Los Angeles

“Our patients and staff all love the TESS panels that were installed in our MRI and PET/CT suites. Here at Children’s Hospital Los Angeles, our young patients are often uneasy with the unknowns of their procedures; and the calming effects of the vivid graphics that our TESS panels produce are very helpful in allowing our patients to feel more relaxed and at peace during their procedures...we look forward to integrating more TESS panels into our facility.

“Thanks for all of your great service!”
